Climbing

Full Stack Software Developer

I am a Full Stack Software Developer, with a passion to explore and discover more about the realms of both back-end and front- end technologies. I am always looking to innovate and willing to use my knowledge and skills from my diverse experiences in various industries to create solutions and solve problems.

PROJECTS

iO Academy Bootcamp
July-2023 - October 2023

Full Stack Developer Graduate

- Studied and worked intensively with programming languages including **JavaScript** and **PHP**, as well as **MySQL** databases.
- Proficient in frameworks such as **React** and **Slim**, enhancing capabilities in modern web development.
- Applied knowledge to real-world projects, utilising architectural styles like **REST** and design patterns such as **MVC**, along with **Object-Oriented Programming** concepts
- Worked with Testing on every project using **Jest**, **PHPUnit**, and **CircleCI**.
- Worked with **Agile** methodologies, facilitating collaborative and efficient project workflows

Academy Portal

Full Stack Project

- Added a new feature allowing Admins to lock specific fields to prevent student from editing
- Worked on both **front-end** and **back-end** developing aspects
- Interacted with **MySQL** database
- Implemented and ensured new feature alignment with **MVC** design pattern
- Integrated **JavaScript** and **PHP** code into existing **legacy codebase**
- Passed **CircleCI tests** for quality assurance
- Utilised technologies: **HTML5**, **Bootstrap3**, **JavaScript**, **PHP**, **MySQL**, **CircleCI**, **GitHub**
